Luckily, there are websites that offer free textbooks for high school and college students. While you're in school, you will go through a number of textbooks and the cost can add up pretty quickly. Get started As a homeschooling parent, your curricular choices can be overwhelming—and even more so when it comes to teaching math. See our Privacy Policy and User Agreement for details. This gets to the heart of why we created our Singapore Math video series! Taught by trained, experienced and engaging educators, our teaching videos will have your students begging you to turn on their math lessons, which will turn on their power of learning and yours.
